LOCK N LOAD®

Now weight selection is as easy as flipping a switch. The intuitive Lock N Load® design is easily recognizable. If you've ever flicked a light switch on and off, you'll immediately understand how it works. Universally color coded switches engage and disengage the weight via an internal pin, providing a safer, more durable and maintenance free operation. Lock N Load® prevents unnecessary maintenance and customer service headaches since there are no pins to lose or replace.
